This AIMS event explores entrepreneurship from the Venture Capitalist side.

Timothy C. Draper is the Founder and a Managing Director of Draper Fisher Jurvetson. His original suggestion to use "viral marketing" in web-based e-mail to geometrically spread an Internet product to its market was instrumental to the successes of Hotmail and YahooMail, and has been adopted as a standard marketing technique by hundreds of businesses. Tim serves on the boards of Glam, Meebo, ShareThis, SocialText, and DFJ Plug’N Play companies. Previous successes include: Skype (EBAY), Overture.com (YHOO), Baidu (BIDU), Parametric Technology (PMTC), Hotmail (MSFT), PLX Technologies (PLXT), Preview Travel (TVLY), Digidesign (AVID), and many others.

Tim has a BS degree in Electrical Engineering from Stanford University, and an MBA from Harvard Business School.

Tim has kindly agreed to share his valuable time and insights in entrepreneurship and he will tell us what he looks for in entrepreneurs.
